

Service Platform Technical Documentation

Platform Name: ServiceHub Pro

1. Executive Summary

ServiceHub Pro is a comprehensive service management platform designed to streamline furniture repair and home painting services. The platform connects customers with verified service providers through a multi-role ecosystem including customers, service providers, managers, admins, and super admins.

2. System Architecture Overview

2.1 Technology Stack Recommendations

- **Frontend:** React.js (Web), React Native (Mobile Apps - iOS & Android)
- **Backend:** Node.js with Express.js
- **Database:** MongoDB (Primary),
- **File Storage:** Google Cloud Storage or Firebase Storage
- **Payment Gateway:** Razorpay, PayU
- **Real-time Communication:** WebSocket (Socket.io)
- **Authentication:** JWT with OAuth 2.0
- **Maps Integration:** Google Maps API
- **Push Notifications:** Firebase Cloud Messaging
- **SMS Gateway:** MSG91

2.2 System Components

- Customer Mobile App (Android/iOS)
- Customer Web Portal
- Service Provider Mobile App
- Manager Dashboard (Web)
- Admin Dashboard (Web)
- Super Admin Dashboard (Web)
- Backend API Services
- Database Layer

- File Storage Service
 - Payment Processing Service
 - Notification Service
 - Analytics Engine
-

3. User Roles & Access Control

3.1 Role Hierarchy

3.2 Role-Based Permissions Matrix

Feature	Customer	Service Provider	Team Lead	Manager	Admin	Super Admin
Book Service	✓	✗	✗	✗	View Only	View/Manage
Manage Requests	Own	Assigned	Team	Department	All	All
Financial Access	Own	Own Salary	Team Budgets	Department	Full	Full
User Management	Profile	Profile	View Team	Manage Team	All Users	All Users + Admins

4. Customer Module

4.1 Registration & Authentication

4.1.1 Registration Fields

- Full Name (Required)
- Mobile Number (Required, Primary identifier)

- Email Address (Optional)
- Phone OTP
- Alternate Contact Number (Optional)
- Profile Picture (Optional)

4.1.2 Authentication Methods

- Phone Number + OTP
- Email + Password
- Social Login (Google, Facebook)
- Biometric (Mobile App)

4.2 Service Request Creation

4.2.1 Request Form Fields

Basic Information:

- Service Category (Dropdown)
 - Furniture Repair
 - Furniture Assembly
 - Furniture Polishing
 - Furniture Restoration
 - Interior Painting
 - Exterior Painting
 - Wall Texture
 - Wood Work
 - Custom Carpentry
- Service Sub-Category (Dynamic based on category)
- Request Title (Text, max 100 characters)
- Detailed Description (Textarea, max 1000 characters)
- Urgency Level (Normal, Urgent, Emergency)

Location Details:

- Service Address (Required)
 - House/Flat Number
 - Building/Society Name
 - Street/Area
 - Landmark
 - City (Dropdown)
 - State (Dropdown)
 - PIN Code (6 digits)
 - Location on Map (GPS coordinates)
- Alternative Address (Optional, saved addresses)

- Floor Number (Optional)
- Property Type (House, Apartment, Office, Commercial)

Scheduling:

- Preferred Date (Date Picker)
- Preferred Time Slot
 - Morning (8 AM - 12 PM)
 - Afternoon (12 PM - 4 PM)
 - Evening (4 PM - 8 PM)
 - Flexible
- Estimated Duration (Auto-calculated/Manual)

Media Attachments:

- Upload Images (Max 10, up to 5MB each)
 - Support formats: JPG, PNG, HEIC
 - Image preview before upload
 - Annotation capability
- Upload Videos (Max 2, up to 50MB each)
- Reference Images (Optional, for desired outcome)

Additional Information:

- Special Instructions (Textarea, max 500 characters)
- Access Instructions (Gate code, parking info, etc.)
- Number of Items/Rooms (Numeric)
- Material Preferences (If applicable)
- Color Code/Shade (For painting services)
- Budget Range (Optional slider)

Contact Preferences:

- Primary Contact Number (Pre-filled)
- Alternate Contact Number
- Best Time to Call
- Communication Preference (Call, SMS, WhatsApp, In-app)

4.2.2 Request Submission Flow

1. Category Selection
2. Fill Request Details
3. Upload Images/Videos
4. Review Request Summary
5. Confirm Service Address
6. Select Time Slot

7. Submit Request
8. Receive Confirmation (In-app + SMS + Email)
9. Auto-assignment to service provider or manual assignment

4.3 Request Tracking

4.3.1 Request Status Flow

Submitted → Pending Assignment → Assigned → Accepted by Provider →
In Progress → Work Completed → Quality Check → Payment Pending →
Payment Completed → Closed

Alternative Flows:

- Rejected by Provider → Reassigned
- Cancelled by Customer → Cancelled
- Issue Raised → Under Review → Resolved/Escalated

4.3.2 Tracking Features

- Real-time status updates with timestamps
- Push notifications for status changes
- Service provider details (Name, photo, contact)
- Live location tracking (when provider is en route)
- Estimated arrival time (ETA)
- Work progress percentage
- Before/After photo comparison
- Timeline view of all activities
- Chat with assigned provider
- Call assigned provider (masked number)

4.4 In-Service Features

4.4.1 Issue Reporting

Issue Types:

- Service provider not arrived
- Poor quality of work
- Delayed service
- Rude behavior
- Additional charges demanded
- Damage to property
- Safety concerns
- Other (specify)

Issue Form Fields:

- Issue Type (Dropdown)
- Issue Description (Required, max 1000 characters)
- Upload Evidence (Photos/Videos)
- Severity (Low, Medium, High, Critical)
- Preferred Resolution

Issue Resolution Flow:

1. Customer raises issue
2. Immediate notification to manager
3. Manager reviews and responds within 30 minutes
4. Resolution actions (Provider replacement, refund, compensation)
5. Follow-up with customer
6. Issue closure with feedback

4.4.2 Support Contact

- In-app Chat Support (24/7)
- Phone Support (Toll-free number)
- Email Support
- WhatsApp Support
- Help Center/FAQ
- Video Call Support (for technical issues)
- Callback Request

4.5 Payment Module**4.5.1 Payment Triggers**

- After work completion and customer approval
- Before service (advance payment option)
- Partial payment during milestones

4.5.2 Payment Methods**Online Payment:**

- Credit/Debit Cards
- UPI (GPay, PhonePe, Paytm, etc.)
- Net Banking
- Digital Wallets
- EMI Options (for high-value services)

Offline Payment:

- Cash on Delivery
- QR Code Scanner (at service location)
- Payment Link (sent by provider)

4.5.3 Payment Features

- Itemized Bill/Invoice
- Service Charges Breakdown
- Material Costs (if applicable)
- GST/Tax Details
- Discount/Coupon Application
- Payment Gateway Charges
- Total Amount Payable
- Payment Receipt (PDF download)
- Payment History
- Refund Tracking

4.5.4 Pricing Model

- Base Service Fee
- Per Unit/Square Foot Charges
- Material Charges (if platform supplies)
- Travel Charges (beyond serviceable radius)
- Urgent Service Surcharge
- Peak Time Charges
- Discount for repeat customers
- Referral Discounts

4.6 Profile Management

4.6.1 Editable Profile Fields

- Full Name
- Email Address
- Profile Picture
- Alternate Contact Number
- Date of Birth
- Gender

4.6.2 Address Management

- Add New Address
- Edit Existing Address
- Delete Address
- Set Default Address

- Label Addresses (Home, Office, Other)
- Save up to 5 addresses

4.6.3 Phone Number Update

- Verify new number with OTP
- Security check (password confirmation)
- Update across all active requests
- Notification to registered email

4.7 Additional Customer Features

4.7.1 Service History

- All past service requests
- Filter by date, category, status
- Reorder same service (one-click)
- Download invoice/receipt
- Service completion certificate

4.7.2 Ratings & Reviews

- Rate service provider (1-5 stars)
- Rate overall service quality
- Write detailed review (max 500 characters)
- Upload photos of completed work
- Review moderation by admin
- Response from service provider

4.7.3 Favorites

- Save favorite service providers
- Request specific provider
- View provider availability

4.7.4 Notifications

- Service status updates
- Promotional offers
- Payment reminders
- Provider arrival alerts
- Feedback requests
- Platform updates

4.7.5 Referral Program

- Unique referral code
- Share via SMS, WhatsApp, Email
- Track referrals
- View referral rewards
- Redeem rewards

4.7.6 Subscription Plans (Optional)

- Monthly/Annual subscriptions
 - Priority service booking
 - Discounted rates
 - Free service inspections
 - Extended warranty
-

5. Service Provider Module

5.1 Enrollment & Verification

5.1.1 Enrollment Form Fields

Personal Information:

- Full Name (Required)
- Father's/Spouse Name (Required)
- Date of Birth (Required, Age 18-60)
- Gender (Required)
- Mobile Number (Required, primary login)
- Alternate Mobile Number (Optional)
- Email Address (Optional)
- Profile Photograph (Required, clear face photo)
- Emergency Contact Name & Number (Required)

Identity Verification:

- Aadhaar Card Number (12 digits, Required)
- Aadhaar Card Front Image (Required)
- Aadhaar Card Back Image (Required)
- PAN Card Number (Optional, for tax purposes)
- PAN Card Image (Optional)
- Driving License Number (If assigned vehicle)
- Driving License Image (Front & Back)

Address Details:

- Current Residential Address (Required)
 - House/Flat Number
 - Street/Area
 - Landmark
 - City
 - State
 - PIN Code
 - Residence Type (Owned, Rented)
- Address Proof Document (Required)
 - Aadhaar Card
 - Utility Bill (Electricity, Water, Gas)
 - Rent Agreement
 - Bank Statement
- Duration at Current Address (Dropdown)

Police Verification:

- Police Verification Certificate Upload (Required)
- Certificate Issue Date
- Police Station Name
- Certificate Validity
- Verification Status (Auto-checked by admin)

Professional Information:

- Role Selection (Required)
 - Main Worker
 - Helper
 - Team Lead
 - Manager (by invitation only)
- Specialization/Skills (Multi-select)
 - Carpentry
 - Furniture Repair
 - Polishing
 - Painting (Interior/Exterior)
 - Assembly
 - Wood Work
- Years of Experience (Required)
- Previous Employer Details (Optional)
- Work Portfolio Images (Upload up to 10)
- Professional Certifications (If any)
- Language Proficiency (Multi-select)

Bank Account Details:

- Account Holder Name (Required)
- Bank Account Number (Required)
- IFSC Code (Required)
- Bank Name & Branch
- Cancelled Cheque/Bank Statement Upload (Required)

References:

- Reference 1 Name & Mobile Number (Required)
- Reference 2 Name & Mobile Number (Required)
- Relationship with Reference

Terms & Conditions:

- Accept Platform Policies (Checkbox)
- Accept Background Verification (Checkbox)
- Consent for Data Processing (Checkbox)

5.1.2 Verification Process Flow

1. Submit Enrollment Form
2. AI-based Document Verification (Instant)
3. Manual Admin Review (24-48 hours)
4. Police Verification Check (3-7 days)
5. Background Screening (Third-party integration)
6. Address Verification (Field verification by manager)
7. Skill Assessment Test (Online/Offline)
8. Final Approval by Admin
9. Role Assignment
10. Onboarding Training (Video modules)
11. Account Activation
12. Toolkit & Vehicle Assignment (if applicable)

5.1.3 Verification Status Types

- Pending Submission
- Under Review
- Documents Incomplete
- Verification in Progress
- Police Verification Pending
- Address Verification Pending
- Approved - Training Pending
- Active
- Suspended
- Rejected (with reason)
- Blacklisted

5.2 Request Management

5.2.1 Request Dashboard

- Assigned Requests (Current)
- Pending Acceptance (Action required)
- In Progress Requests
- Completed Requests (Today)
- Upcoming Scheduled Requests
- Request History

5.2.2 Request Details View

Customer Information:

- Customer Name (Masked if needed)
- Contact Number (Masked, callable via app)
- Service Address with map
- Access Instructions
- Customer Rating/History

Service Information:

- Request ID
- Service Category & Sub-category
- Detailed Description
- Customer-uploaded Images
- Scheduled Date & Time
- Estimated Duration
- Material Requirements
- Special Instructions
- Priority Level

Assignment Details:

- Assigned Date & Time
- Assigned By (Manager/Team Lead name)
- Team Members (if multi-person job)
- Estimated Travel Time
- Distance from Current Location

5.2.3 Request Actions

Accept/Reject Request:

- Accept Request (with confirmation)

- Reject Request
 - Reason for Rejection (Required)
 - Already Scheduled
 - Outside Expertise
 - Health/Personal Emergency
 - Location Too Far
 - Other (Specify)
 - Auto-reassignment trigger

Navigate to Location:

- Open in Google Maps
- Get Directions
- View Estimated Travel Time
- Start Journey (GPS tracking enabled)

Request Status Updates:

Status Progression:

1. Accepted

- Timestamp recorded
- Customer notified
- ETA shared

2. On the Way

- GPS tracking active
- Live location visible to customer
- Update ETA if delayed

3. Reached Location

- Geo-fence verification
- Notify customer
- Start timer for SLA

4. Work Started

- Capture "Before" Photos (Mandatory, min 3)
 - Overall view
 - Specific problem areas
 - Close-up shots
- Photo timestamp
- Add notes if needed

5. Work in Progress

- Update progress percentage (0-100%)
- Add interim photos (Optional)
- Request additional materials (if needed)
- Pause/Resume work tracking

6. Work Completed

- Capture "After" Photos (Mandatory, min 3)
 - Overall view
 - Completed work details
 - Close-up shots
- Side-by-side comparison view
- Add completion notes
- Stop timer

7. Quality Check Pending

- Customer review in-app
- Manager approval (if required)

8. Payment Collection

- Display bill amount
- Select payment method
- Collect payment
- Generate receipt

Status Update Requirements:

- Timestamp for each status change
- GPS location for field updates
- Mandatory photos for specific statuses
- Optional notes (max 500 characters)
- Can't skip status in sequence

5.2.4 Photo Management

Before Photos Requirements:

- Minimum 3 photos mandatory
- Maximum 10 photos allowed
- Clear, well-lit images
- Multiple angles
- Timestamp automatically added
- GPS location tagged

After Photos Requirements:

- Minimum 3 photos mandatory
- Maximum 10 photos allowed
- Same angles as before photos (suggested)
- High-quality completion shots
- Before-after comparison feature
- Customer approval required

Photo Guidelines (In-app tips):

- Good lighting
- Clear focus
- Multiple angles
- Include full context
- Avoid blurry images
- Professional presentation

5.3 Communication Features

5.3.1 Team Communication

Contact Team Lead:

- In-app Chat
- Voice Call (free via app)
- Video Call (for technical guidance)
- Share Location
- Share Photos/Documents
- Request Support

Contact Manager:

- In-app Chat
- Voice Call
- Emergency SOS Button
- Report Issues
- Request Resources

Team Collaboration:

- Group Chat (for multi-person jobs)
- Share Work Updates
- Coordinate Timing
- Material Sharing

5.3.2 Customer Communication

- Masked Phone Calls (privacy protected)
- In-app Chat
- Send Photos/Updates
- Share ETA
- Request Clarifications
- Professional Communication Templates

5.3.3 Support Contact

- Technical Support Chat
- Help with App Issues
- Report Emergency
- Training Resources Access

5.4 Resource Management

5.4.1 Toolkit Management

Assigned Toolkit Details:

- Toolkit ID
- Toolkit Type/Category
 - Basic Carpentry Set
 - Painting Set
 - Advanced Repair Set
 - Polishing Set
 - Assembly Set
- Issue Date
- Tool List with Quantities
- Condition Status
- Last Inspection Date
- Next Inspection Due

View Toolkit Inventory:

- Complete Tool List
- Tool Condition (Good, Fair, Needs Replacement)
- Tool Images
- Usage Guidelines
- Safety Instructions
- Maintenance Schedule

Toolkit Replacement Request:

- Select Tool to Replace
- Reason for Replacement (Required)

- Damaged
- Lost
- Worn Out
- Stolen (with police complaint)
- Other
- Upload Photo Proof (Required, min 2)
- Describe Damage/Issue (max 500 characters)
- Urgency Level
- Request Date
- Track Replacement Status
 - Submitted
 - Under Review
 - Approved
 - Dispatched
 - Delivered
 - Rejected (with reason)

Toolkit Maintenance:

- Schedule Tool Inspection
- Report Missing Tools
- Tool Damage History
- Replacement History
- Toolkit Return Process (if leaving platform)

5.4.2 Vehicle Management

Assigned Vehicle Information:

- Vehicle Registration Number
- Vehicle Type (Bike, Scooter, Van)
- Make & Model
- Vehicle Image
- Assignment Date
- Insurance Expiry Date
- PUC (Pollution) Expiry Date
- Last Service Date
- Next Service Due
- Odometer Reading
- Fuel Type
- Vehicle Condition

Vehicle Documents:

- RC (Registration Certificate)

- Insurance Certificate
- PUC Certificate
- Pollution Certificate
- Service History

Petrol Refill Process:

1. Go to Fuel Station
2. Refill Petrol
3. Take Photo of Bill/Receipt (Required)
 - Must show: Date, Time, Amount, Quantity, Station Name
 - Clear, readable image
4. Enter Details in App:
 - Bill Date & Time
 - Fuel Station Name & Location
 - Bill Amount (₹)
 - Litres Filled
 - Odometer Reading
 - Upload Bill Photo
5. Submit for Approval
6. Track Approval Status
7. Reimbursement credited to account

Petrol Refill Policies:

- Frequency: Based on assigned routes
- Maximum Amount per refill: ₹500 (example)
- Monthly Limit: ₹2000 (example)
- Approved Fuel Stations Only
- Bill photo mandatory
- Approval within 48 hours
- Reimbursement in next salary cycle
- Reject reasons: Blurry image, details mismatch, duplicate claim

Vehicle Service Request: Service Types:

- Regular Service (scheduled)
- Breakdown/Emergency
- Tyre Replacement
- Battery Issues
- Accident Damage
- Other Repairs

Service Request Form:

- Vehicle Registration Number (Pre-filled)

- Service Type (Dropdown)
- Issue Description (Required, max 1000 characters)
- Upload Photos (min 2)
- Current Odometer Reading
- Severity Level (Low, Medium, High, Critical)
- Current Location
- Preferred Service Date
- Impact on Work (Can't work/Can continue)

Service Request Flow:

1. Submit Service Request
2. Manager Reviews (within 2 hours)
3. Approval/Rejection
4. Assign to Authorized Service Center
5. Schedule Service Appointment
6. Vehicle Drop-off
7. Temporary Vehicle Assignment (if needed)
8. Service Completion
9. Vehicle Pick-up
10. Inspection & Sign-off
11. Service Record Updated

Vehicle Service Tracking:

- Request Status
- Assigned Service Center
- Service Cost Estimate
- Approval Status
- Expected Completion Date
- Service History
- Maintenance Reminders

5.5 Payment Collection

5.5.1 Payment Collection Interface

Bill Generation:

- Auto-calculated Service Charges
- Material Costs (if applicable)
- Additional Charges (with notes)
- Discount Applied (if any)
- GST/Tax Breakdown
- Total Amount

- Payment Breakdown

Payment Methods: Online Collection:

- UPI QR Code (Generated in-app)
 - Customer scans code
 - Amount pre-filled
 - Transaction ID captured
- Payment Link
 - Generate link
 - Share via SMS/WhatsApp
 - Track link clicks & payments
- Card Payment (via mobile POS)
 - Swipe/Tap/Insert card
 - Integrated with payment gateway
 - Digital receipt generated

Cash Collection:

- Enter Amount Received
- Confirm Customer Payment
- Mark as "Cash Collected"
- Cash Denomination Breakdown (optional)
- Submit for Manager Approval

Partial Payment:

- Advance Collection
- Milestone-based Payments
- Balance Due Tracking

5.5.2 Payment Tracking

Cash Collection Management:

- Daily Cash Collection Summary
- Mark Cash Collected
- Pending Cash Submission
- Cash Handover to Manager
 - Select Date
 - Enter Amount
 - Manager Digital Signature/OTP
 - Receipt Generation
- Cash Submission History
- Discrepancy Reporting

Payment Receipts:

- Digital Receipt Generation
- SMS Receipt to Customer
- Email Receipt (if email available)
- Receipt Copy for Provider
- Receipt Download (PDF)

Payment Reports:

- Daily Collection Summary
- Online vs Cash Breakdown
- Pending Payments
- Payment Method Statistics
- Commission/Incentive Calculations

5.6 Performance Dashboard & Statistics**5.6.1 Performance Metrics****Today's Stats:**

- Requests Assigned
- Requests Completed
- Requests In Progress
- Completion Rate
- Average Rating Received
- Total Earnings (Today)

Weekly Stats:

- Total Requests Completed
- On-time Completion Rate
- Customer Satisfaction Score
- Average Job Duration
- Total Distance Traveled
- Total Earnings

Monthly Stats:

- Total Requests Completed
- Month-over-month Growth
- Customer Ratings Distribution
- Most Common Service Type
- Peak Working Hours
- Total Earnings

All-Time Stats:

- Total Lifetime Requests
- Overall Customer Rating
- Total Earnings
- Tenure with Platform
- Customer Retention Rate
- Badge/Achievement Unlocked

5.6.2 Financial Dashboard**Salary & Earnings:**

- Current Month Earnings (Running total)
 - Base Salary
 - Per-job Earnings
 - Incentives
 - Bonuses
 - Reimbursements (Petrol, etc.)
 - Deductions (if any)
 - Net Payable
- Salary Payment Schedule
 - Next Payment Date
 - Expected Amount
 - Payment Mode (Bank Transfer)

Salary History:

- Filter by Month/Year
- Detailed Breakdown
- Salary Slips (PDF Download)
- Tax Deduction Certificates

Incentives Earned:

- Performance Incentives
 - Target-based Rewards
 - Quality Bonuses
 - On-time Completion Bonuses
- Customer Rating Incentives
- Referral Bonuses
- Festival/Special Bonuses
- Total Incentives (Month/Year)

Incentive Filters:

- By Type
- By Date Range
- By Status (Earned, Credited, Pending)
- By Amount Range

Dues & Pending Payments:

- Pending Salary Amount
- Pending Reimbursements
- Advance Salary Taken
- Loan Deductions (if any)
- Expected Credit Date

Earnings Breakdown Visualization:

- Pie Chart (Earnings by Type)
- Line Graph (Earnings Trend)
- Bar Chart (Monthly Comparison)

5.7 Additional Provider Features**5.7.1 Attendance & Shift Management**

- Clock In/Out (GPS-verified)
- Shift Timings
- Break Time Tracking
- Overtime Recording
- Leave Application
- Leave Balance
- Holiday Calendar

5.7.2 Training & Development

- Access Training Videos
- Skill Certification Courses
- Safety Training Modules
- New Tool/Technique Tutorials
- Quiz & Assessments
- Certificate Downloads

5.7.3 Achievements & Badges

- Top Performer Badge
- Customer Favorite Badge

- Quality Excellence Badge
- On-time Hero Badge
- Century Milestone (100 jobs)
- Customer Satisfaction Master
- Badge Display on Profile

5.7.4 Notifications

- New Request Assigned
- Request Deadline Approaching
- Customer Messages
- Payment Received
- Salary Credited
- Toolkit/Vehicle Updates
- Training Reminders
- Performance Alerts

5.7.5 Help & Support

- FAQ Section
 - Video Tutorials
 - Chat Support
 - Report Technical Issues
 - Feedback & Suggestions
 - Emergency Contact Numbers
-

6. Manager Module

6.1 Team Management

6.1.1 Team Overview Dashboard

Team Statistics:

- Total Team Members
 - Active
 - On Leave
 - Inactive
- Team Composition by Role
 - Team Leads Count
 - Main Workers Count
 - Helpers Count
- Team Performance Metrics

- Average Team Rating
- Team Completion Rate
- Team Efficiency Score
- Today's Team Activity
 - Members On Duty

 - Request Completion Rate
- Area of Operation
- Assigned Resources
- Reporting & Communication

Team Lead Actions:

- Assign/Reassign Team Members
- Set Performance Targets
- Review Performance
- Approve Resource Requests
- Communication (Chat/Call)
- Transfer to Another Manager (with approval)

6.1.4 Team Formation & Restructuring

- Create New Teams
- Assign Team Lead
- Add Team Members
- Define Team Territory/Zone
- Set Team Capacity
- Merge Teams
- Dissolve Teams
- Rebalance Workload

6.2 Request Management

6.2.1 Request Dashboard

Request Overview:

- Total Active Requests
- Pending Assignment
- Assigned & In Progress
- Completed Today
- Overdue Requests
- Escalated Requests
- Request Backlog

Request Filters:

- By Status
- By Priority
- By Service Category
- By Team/Team Lead
- By Location/Zone
- By Date Range
- By Customer Rating

6.2.2 Request Assignment

Auto-Assignment Logic:

- Based on Proximity
- Based on Specialization
- Based on Current Workload
- Based on Performance Rating
- Based on Availability

Manual Assignment:

- View Available Service Providers
 - Current Location (map view)
 - Current Workload
 - Specialization Match
 - Performance History
 - Customer Preference (if any)
- Select Provider/Team
- Add Assignment Notes
- Set Priority
- Confirm Assignment

- Notify Provider

Bulk Assignment:

- Select Multiple Requests
- Filter Compatible Providers
- Distribute Workload Evenly
- Optimize Route Planning
- Confirm Bulk Assignment

Request Reassignment:

- View Reassignment Reason
- Select New Provider
- Add Reassignment Notes
- Notify Both Parties
- Track Reassignment History

6.2.3 Request Monitoring**Live Request Tracking:**

- Map View of All Active Requests
- Provider Location in Real-time
- Request Status Updates
- Delay Alerts
- SLA Breach Warnings
- Quality Check Pending

Request Details View:

- Complete Request Information
- Customer Details
- Assigned Provider Details
- Service Timeline
- Status History
- Communication Logs
- Before/After Photos
- Payment Status

Request Intervention:

- Escalate to Admin
- Reassign Provider
- Modify Schedule

- Add Notes
- Contact Customer
- Contact Provider
- Approve Special Requests
- Override Status (with reason)

6.3 Customer Requests & Issues

6.3.1 Customer Issue Management

Issue Dashboard:

- Active Issues Count
- Critical Issues (SLA)
- Pending Resolution
- Resolved Today
- Escalated Issues
- Issue Category Breakdown

View Customer Issues:

- Issue ID & Type
- Customer Name & Contact
- Request Details
- Issue Description
- Evidence (Photos/Videos)
- Severity Level
- Reported Date & Time
- Current Status
- Assigned Resolver

Issue Actions: Immediate Response (within 30 minutes):

- Acknowledge Receipt
- Contact Customer
- Assess Situation
- Take Action:
 - Reassign Provider
 - Send Supervisor
 - Offer Compensation
 - Schedule Rework
 - Initiate Refund
- Update Customer
- Document Resolution
- Close Issue

- Follow-up Call

Issue Resolution Tracking:

- Resolution Timeline
- Actions Taken
- Customer Satisfaction
- Provider Feedback
- Compensation Issued
- Case Closure Notes

6.3.2 Customer Communication

- View Customer Messages
- Respond to Queries
- Handle Complaints
- Schedule Callbacks
- Send Updates
- Resolve Disputes

6.4 Payment Management

6.4.1 Payment Overview Dashboard

Financial Summary:

- Today's Collections
 - Online Payments
 - Cash Collections
 - Total Revenue
- Weekly/Monthly Trends
- Pending Payments
- Refunds Issued
- Revenue by Service Category
- Revenue by Team/Provider

Payment Filters:

- By Payment Method
- By Provider
- By Team
- By Date Range
- By Service Category
- By Status (Completed, Pending, Failed)

6.4.2 Cash Management

Cash Collection Tracking:

- Daily Cash Collections by Provider
- Pending Cash Submissions
- Cash Handover Requests
- Verify Cash Amounts
- Approve Cash Submissions
 - Enter Manager OTP
 - Digital Signature
 - Receipt Generation
- Discrepancy Management
 - Flag Mismatches
 - Request Clarification
 - Initiate Investigation

Cash Reconciliation:

- Daily Cash Reconciliation
- Bank Deposit Tracking
- Cash in Hand
- Deposit Slips Upload
- Variance Reports

6.4.3 Petrol Payment Approval**Petrol Reimbursement Queue:**

- Pending Approvals Count
- Provider Name
- Bill Date & Amount
- Fuel Station
- Litres Filled
- Odometer Reading
- Bill Photo

Approval Process:

- View Bill Details
- Verify Bill Photo
 - Check Clarity
 - Verify Date & Time
 - Verify Amount & Quantity
 - Check Station Name
- Check Provider Eligibility
 - Monthly Limit
 - Previous Claims

- Route Assignment
- Cross-verify Odometer Reading
- Approve/Reject
 - Rejection Reasons:
 - Blurry Image
 - Details Mismatch
 - Duplicate Claim
 - Exceeds Limit
 - Unauthorized Station
 - Suspicious Activity
- Add Comments
- Batch Approval (multiple claims)

Petrol Expense Tracking:

- Provider-wise Fuel Consumption
- Monthly Fuel Budget
- Fuel Efficiency Reports
- Cost Analysis
- Trend Analysis
- Alert for Anomalies

6.4.4 Payment Reports

- Revenue Reports
- Collection Efficiency
- Outstanding Payments
- Refund Reports
- Provider Earnings Reports
- Commission Reports
- GST Reports
- Payment Gateway Charges

6.5 Resource Management

6.5.1 Toolkit Management

Toolkit Inventory:

- Total Toolkits Issued
- Available Toolkits
- Toolkit Categories
- Tool-wise Inventory
- Condition Status
- Maintenance Schedule

Toolkit Assignment Tracking:

- Provider-wise Assignments
- Assignment History
- Return Tracking
- Inspection Reports
- Damage Reports

Toolkit Replacement Requests: View Replacement Queue:

- Request ID
- Provider Name
- Tool Name
- Reason for Replacement
- Photo Proof
- Urgency Level
- Request Date

Approval Process:

1. Review Request Details
2. Verify Photo Proof
3. Check Replacement History
4. Assess Legitimacy
5. Approve/Reject:
 - Approve: Initiate Procurement/Issue
 - Reject: Provide Reason
 - Insufficient Proof
 - Normal Wear & Tear
 - Mishandling
 - Already Replaced Recently
 - Tool Still Usable
6. Track Dispatch & Delivery
7. Update Inventory
8. Close Request

Toolkit Procurement:

- Check Stock Levels
- Raise Purchase Orders
- Vendor Management
- Quality Checks
- Stock Updates

6.5.2 Vehicle Management

Vehicle Fleet Overview:

- Total Vehicles
- Assigned Vehicles
- Available Vehicles
- Vehicle Types
- Maintenance Schedule
- Insurance Expiry Tracking

Vehicle Assignment:

- Assign Vehicle to Provider
- Vehicle Allocation by Zone
- Track Vehicle Utilization
- Reassign Vehicles

Vehicle Service Requests: View Service Queue:

- Request ID
- Provider Name
- Vehicle Registration Number
- Issue Type
- Description
- Photo Proof
- Severity Level
- Impact on Work

Service Request Handling:

1. Review Request (within 2 hours)
2. Assess Severity
3. Approve/Reject
4. Assign to Service Center
5. Arrange Temporary Vehicle (if critical)
6. Schedule Service
7. Track Service Progress
8. Verify Completion
9. Approve Expenses
10. Update Vehicle Records

Vehicle Expense Management:

- Service Costs
- Repair Expenses
- Insurance Renewals
- Fuel Expenses

- Accident Claims
- Expense Approval Workflow

Vehicle Maintenance:

- Schedule Preventive Maintenance
- Service History
- Odometer Tracking
- Document Management (RC, Insurance, PUC)
- Expiry Alerts

6.6 Manager Statistics & Reports

6.6.1 Performance Analytics

Team Performance:

- Team Productivity Metrics
- Completion Rate Trends
- Quality Score Trends
- Customer Satisfaction Trends
- Efficiency Benchmarks
- Comparative Analysis (team vs team)

Provider Performance:

- Top Performers
- Low Performers (coaching needed)
- Performance Distribution
- Skill Utilization
- Capacity Planning

Service Analytics:

- Service Category Distribution
- Peak Service Hours
- Geographic Heat Maps
- Service Duration Analysis
- Repeat Customer Rate

6.6.2 Financial Reports

- Revenue Summary (Daily/Weekly/Monthly)
- Collection Reports
- Expense Reports
- Provider Earnings Summary

- Profit Margins
- Cost Analysis
- Budget vs Actual
- Forecast Reports

6.6.3 Operational Reports

- SLA Compliance Reports
- Request Volume Trends
- Resource Utilization
- Downtime Analysis
- Issue Resolution Reports
- Customer Complaint Analysis

6.6.4 Custom Reports

- Build Custom Reports
- Select Metrics
- Apply Filters
- Schedule Reports (Email delivery)
- Export Reports (PDF, Excel, CSV)
- Share with Stakeholders

6.7 Manager Communication & Collaboration

6.7.1 Team Communication

- Broadcast Messages to Team
- Team Meetings Scheduling
- Announcements
- Performance Feedback
- Recognition & Appreciation

6.7.2 Cross-functional Communication

- Chat with Other Managers
- Admin Communication
- Coordination for Resource Sharing
- Best Practice Sharing

6.7.3 Escalation Management

- Escalate Issues to Admin
- Receive Escalations from Team Leads
- Track Escalation Resolution
- Escalation Reports

6.8 Additional Manager Features

6.8.1 Target Management

- Set Team Targets (Monthly/Quarterly)
- Set Individual Targets
- Track Progress
- Performance vs Target Reports
- Incentive Calculations

6.8.2 Leave & Attendance Management

- View Team Attendance
- Approve/Reject Leave Requests
- Manage Shift Schedules
- Track Absenteeism
- Generate Attendance Reports

6.8.3 Training Management

- Assign Training Modules
- Track Training Completion
- Schedule Skill Development Sessions
- Certification Tracking
- Training Effectiveness Reports

6.8.4 Quality Assurance

- Random Quality Checks
 - Customer Callback Programs
 - Photo/Video Review
 - Quality Audit Reports
 - Corrective Action Plans
-

7. Admin Module

7.1 System-wide Overview Dashboard

7.1.1 Executive Summary

Key Metrics (Real-time):

- Total Active Customers

- Total Active Service Providers
- Total Active Requests (Today/Week/Month)
- Revenue (Today/Week/Month/Year)
- Platform Growth Rate
- Customer Acquisition Rate
- Provider Churn Rate
- Average Customer Satisfaction Score

Visual Analytics:

- Revenue Trend Graph (Last 12 months)
- Request Volume Trend
- Geographic Distribution Map
- Service Category Distribution
- Performance Benchmarks

7.2 Customer Management

7.2.1 Customer Database

View All Customers:

- Comprehensive Customer List
- Search by Name, Phone, Email, Customer ID
- Filter by:
 - Status (Active, Inactive, Blocked)
 - Registration Date
 - Location/City
 - Total Requests Placed
 - Lifetime Value
 - Subscription Status
- Sort by:
 - Registration Date
 - Last Active Date
 - Total Spend
 - Request Count

Customer Details:

- Personal Information
- Contact Details
- Address History
- Registration Date
- Last Active Date
- Total Requests Placed

- Total Amount Spent
- Average Rating Given
- Payment History
- Preferred Service Categories
- Devices Used (Web/iOS/Android)
- Referral History

Customer Actions:

- View Full Profile
- Edit Information
- Block/Unblock Customer
 - Reason Required
 - Notification to Customer
- Delete Account (GDPR compliant)
- Send Notification
- Apply Discount/Coupon
- View Request History
- View Payment History
- View Support Tickets
- Export Customer Data

7.2.2 Customer Analytics

- Customer Lifetime Value (CLV)
- Customer Acquisition Cost (CAC)
- Retention Rate
- Churn Analysis
- Segment Analysis
- Behavior Patterns
- Referral Performance

7.3 Service Provider Management

7.3.1 Provider Database

View All Providers:

- Complete Provider List
- Search by Name, Phone, ID, Aadhaar
- Filter by:
 - Role (Main Worker, Helper, Team Lead)
 - Status (Active, Inactive, On Leave, Suspended)
 - Verification Status
 - Specialization

- Location/Zone
- Manager/Team Lead
- Performance Rating
- Onboarding Date
- Sort by:
 - Performance Score
 - Total Requests Completed
 - Customer Rating
 - Joining Date
 - Earnings

Provider Details:

- Personal Information
- Identity Verification Status
- Police Verification Status
- Address Verification Status
- Role & Specialization
- Manager & Team Lead Assignment
- Onboarding Date & Tenure
- Total Requests Completed
- Completion Rate
- Average Customer Rating
- Total Earnings (Lifetime/Monthly)
- Assigned Resources (Toolkit, Vehicle)
- Training Completion Status
- Attendance Record
- Disciplinary History

Provider Actions:

- View Full Profile
- Edit Information
- Change Role/Designation
- Reassign Manager/Team Lead
- Approve/Reject Enrollment
- Suspend/Reactivate Account
- Blacklist Provider
 - Reason Required
 - Permanent Blacklist Database
- Assign Resources
- Modify Salary Structure
- Access Background Check Reports
- View Performance Reports
- Send Notifications

- Export Provider Data

7.3.2 Provider Onboarding

Pending Approvals:

- New Enrollments Queue
- Documents Under Review
- Police Verification Pending
- Address Verification Pending
- Final Approval Pending

Onboarding Workflow:

1. Review Application
2. Verify Documents
 - Aadhaar Verification (API Integration)
 - PAN Verification
 - Driving License Verification
3. Initiate Police Verification
4. Schedule Address Verification
5. Conduct Skill Assessment
6. Background Check (Third-party)
7. Manager Interview (if required)
8. Final Approval/Rejection
9. Onboarding Communication
10. Training Assignment
11. Resource Allocation

Verification Partners:

- Government ID Verification APIs
- Police Verification Services
- Background Check Agencies
- Field Verification Teams

7.3.3 Provider Analytics

- Provider Performance Rankings
- Skill Distribution
- Geographic Distribution
- Capacity Analysis
- Utilization Rate
- Earnings Distribution
- Retention & Churn
- Training Effectiveness

7.4 Team Management (Admin Level)

7.4.1 Manager Management

View All Managers:

- Manager List
- Filter by Location, Performance, Team Size
- Manager Performance Metrics
- Teams Under Each Manager

Manager Actions:

- Onboard New Manager
- Assign/Reassign Territories
- Set Performance Targets
- Review Performance
- Approve Major Decisions
- Access Control Management

7.4.2 Team Lead Management

- View All Team Leads
- Performance Tracking
- Team Composition
- Promote to Manager
- Territory Management

7.4.3 Organizational Structure

- View Organization Chart
- Reporting Hierarchy
- Team Distribution Map
- Capacity Planning
- Restructuring Tools

7.5 Request Management (Admin Level)

7.5.1 Request Monitoring

Global Request Dashboard:

- All Active Requests Across Platform
- Real-time Status Updates
- Heatmap of Request Density
- SLA Compliance Monitoring

- High-priority/Escalated Requests

Advanced Filters:

- By All Parameters (Status, Location, Category, etc.)
- By Manager/Team
- By SLA Status
- By Revenue Range
- By Issues Reported

Request Intervention:

- Override Status
- Force Reassignment
- Escalate/De-escalate
- Approve Special Discounts/Refunds
- Access All Communication Logs
- Investigate Disputes

7.5.2 Request Analytics

- Request Volume Trends
- Service Category Performance
- Geographic Demand Analysis
- Peak Hour Analysis
- Conversion Funnel
- Drop-off Analysis
- Revenue per Request

7.6 Financial Management

7.6.1 Revenue Dashboard

Revenue Overview:

- Total Revenue (Daily/Weekly/Monthly/Yearly)
- Revenue by Service Category
- Revenue by Location/City
- Revenue by Manager/Team
- Online vs Cash Revenue
- Revenue Growth Rate
- Revenue Forecast

Payment Analytics:

- Payment Method Distribution

- Payment Success Rate
- Failed Transaction Analysis
- Refund Statistics
- Outstanding Payments
- Collection Efficiency

7.6.2 Expense Management

Expense Categories:

- Provider Salaries & Incentives
- Manager Salaries
- Admin Salaries
- Toolkit Procurement
- Vehicle Maintenance
- Fuel Expenses
- Marketing Expenses
- Technology & Infrastructure
- Office & Operations
- Third-party Service Fees

Expense Tracking:

- Expense Approval Workflow
- Budget vs Actual
- Expense Trends
- Cost Optimization Analysis
- Vendor Management

7.6.3 Salary Management

Provider Salaries:

- Salary Structure Configuration
- Base Salary by Role
- Incentive Rules
- Bonus Structure
- Deduction Rules
- Salary Calculation & Processing
- Bulk Salary Disbursement
- Salary Slip Generation
- Tax Deduction Management

Manager & Admin Salaries:

- Salary Processing

- Performance Bonuses
- Expense Reimbursements
- Payroll Reports

7.6.4 Financial Reports

- Profit & Loss Statement
- Balance Sheet
- Cash Flow Statement
- Revenue by Segment
- Expense by Category
- Tax Reports (GST, TDS)
- Audit Reports
- Investor Reports
- Board Reports

7.7 Service Management

7.7.1 Service Category Management

Create Service Category:

- Category Name
- Category Description
- Category Icon/Image
- Base Price
- Pricing Model (Fixed, Per Hour, Per Unit)
- Estimated Duration
- Required Skills
- Active/Inactive Status

Service Sub-Categories:

- Create Sub-categories
- Link to Parent Category
- Specific Pricing
- Specific Requirements

Manage Categories:

- Edit Existing Categories
- Reorder Categories (Display Priority)
- Archive/Delete Categories
- View Category Performance
- Category-wise Revenue

7.7.2 Pricing Management

- Base Price Configuration
- Dynamic Pricing Rules
 - Peak Hour Surcharges
 - Urgent Request Surcharges
 - Distance-based Charges
 - Material Cost Markups
- Discount Rules
- Promotional Pricing
- Bulk Booking Discounts
- Subscription Pricing

7.8 Geographic Management

7.8.1 City Management

Add New City:

- City Name
- State
- Country
- City Code
- Launch Date
- Operational Status
- City Manager Assignment
- Service Categories Available
- Pricing Adjustments

Manage Cities:

- View All Cities
- Edit City Details
- Activate/Deactivate City
- View City Performance
- City-wise Analytics

7.8.2 Area Management

Add Area:

- Area Name
- City (Dropdown)
- Zone/District
- Area Manager
- Service Availability

Serviceable PIN Codes:

- Add PIN Code
- Link to Area/City
- Service Availability Status
- Expected Delivery Time
- Delivery Charges (if applicable)
- Bulk PIN Code Upload (CSV)

Geographic Coverage:

- Coverage Map
- Expansion Planning
- Demand Heatmap
- Underserved Areas
- Competitor Mapping

7.9 Role & Permission Management**7.9.1 Create Roles****Role Creation Interface:**

- Role Name
- Role Description
- Role Type (Staff, Management, Support)
- Reporting To (Hierarchy)
- Permission Template (Optional)

Define Permissions: Module-wise Permissions:

- Customers (View, Add, Edit, Delete)
- Service Providers (View, Add, Edit, Delete, Approve, Suspend)
- Requests (View, Add, Edit, Delete, Assign, Reassign)
- Payments (View, Approve, Process, Refund)
- Reports (View, Export)
- Settings (View, Edit)
- Users (View, Add, Edit, Delete)
- System (Configure, Maintain)

Permission Levels:

- No Access
- View Only
- View & Edit
- Full Control

Role Examples:

- Customer Support Agent
 - View Customers, Requests
 - Edit Customer Details
 - No Financial Access
- Accounts Manager
 - View Payments, Reports
 - Approve Refunds
 - No Customer Editing
- Operations Manager
 - View & Manage Requests
 - Assign Providers
 - Limited Financial Access

7.9.2 Assign Roles

- Assign Role to User
- Multiple Roles per User (if needed)
- Role Expiry (Temporary roles)
- Role Change History

7.9.3 Permission Audit

- Track Permission Changes
- User Access Logs
- Suspicious Activity Alerts
- Compliance Reports

7.10 Employee Management

7.10.1 Onboard New Employee

Employee Types:

- Service Provider (Main Worker, Helper)
- Team Lead
- Manager
- Admin Staff
- Support Staff

Onboarding Form:

- Personal Details
- Contact Information
- Identity Documents

- Address & Verification
- Educational Qualifications
- Work Experience
- Bank Account Details
- Emergency Contact
- Background Verification
- Role Assignment
- Reporting Manager
- Employment Type (Full-time, Part-time, Contract)
- Joining Date
- Probation Period
- Salary Details

Onboarding Checklist:

- Document Verification
- Background Check
- Training Completion
- Resource Allocation (ID Card, Toolkit, Vehicle)
- System Access Setup
- Welcome Kit

7.10.2 Employee Database

- View All Employees
- Search & Filter
- Employee Performance
- Attendance Records
- Salary History
- Training Records
- Disciplinary Records
- Exit Formalities

7.11 Reports & Analytics

7.11.1 Pre-built Reports

Customer Reports:

- Customer Acquisition Report
- Customer Retention Report
- Customer Lifetime Value Report
- Customer Segmentation Report
- Churn Analysis Report

Service Provider Reports:

- Provider Performance Report
- Provider Utilization Report
- Provider Earnings Report
- Provider Attendance Report
- Provider Churn Report

Operational Reports:

- Request Volume Report
- SLA Compliance Report
- Service Category Performance
- Geographic Performance
- Resource Utilization Report

Financial Reports:

- Revenue Report
- Expense Report
- Profit & Loss Report
- Payment Collection Report
- Outstanding Dues Report
- GST Report
- Tax Deduction Report

Quality Reports:

- Customer Satisfaction Report
- Issue Resolution Report
- Quality Audit Report
- Before/After Photo Compliance

7.11.2 Custom Report Builder

- Select Data Sources
- Choose Metrics
- Apply Filters
- Group & Aggregate Data
- Visualization Options (Charts, Tables, Maps)
- Save Report Templates
- Schedule Reports (Daily, Weekly, Monthly)
- Email Distribution
- Export Formats (PDF, Excel, CSV)

7.11.3 Dashboard Builder

- Create Custom Dashboards
- Drag-and-Drop Widgets
- Real-time Data
- Role-based Dashboards
- Share Dashboards

7.12 Platform Configuration

7.12.1 General Settings

- Platform Name & Branding
- Logo & Favicon
- Color Scheme
- Email Templates
- SMS Templates
- Push Notification Templates
- Terms & Conditions
- Privacy Policy
- Refund Policy
- Cancellation Policy

7.12.2 Business Rules

- SLA Timings
- Auto-assignment Rules
- Cancellation Rules
- Refund Rules
- Rating & Review Rules
- Escalation Rules

7.12.3 Payment Gateway Configuration

- Add/Remove Payment Gateways
- Gateway Priority
- Transaction Fees
- Settlement Cycle
- Auto-reconciliation Settings

7.12.4 Notification Settings

- Email Server (SMTP)
- SMS Gateway
- Push Notification Service
- Notification Triggers
- Notification Frequency Limits

7.12.5 Integration Management

- Google Maps API
- Payment Gateway APIs
- Aadhaar Verification API
- PAN Verification API
- Background Check Service API
- SMS Service API
- Email Service API
- Analytics Tools (Google Analytics, Mixpanel)
- CRM Integration
- Accounting Software Integration

7.13 Marketing & Promotions

7.13.1 Coupon Management

- Create Coupons
 - Coupon Code
 - Discount Type (% , Fixed Amount)
 - Discount Value
 - Minimum Order Value
 - Maximum Discount Cap
 - Valid From/To
 - Usage Limit (Per User, Total)
 - Applicable Categories
 - Applicable Cities
 - First-time User Only
 - Referral Coupon
- View Active/Expired Coupons
- Coupon Performance Analytics

7.13.2 Referral Program

- Configure Referral Rewards
 - Referrer Reward
 - Referee Reward
- Referral Leaderboard
- Referral Performance Report

7.13.3 Loyalty Program

- Point Configuration
 - Points per ₹ Spent
 - Points for Reviews

- Points for Referrals
- Redemption Rules
- Loyalty Tiers (Bronze, Silver, Gold, Platinum)
- Tier Benefits

7.13.4 Campaigns

- Email Campaigns
- SMS Campaigns
- Push Notification Campaigns
- In-app Banners
- Campaign Performance Tracking

7.14 Support & Communication

7.14.1 Customer Support

- View All Support Tickets
- Assign Tickets
- Ticket Status Management
- Response Templates
- Escalation Management
- Customer Satisfaction Surveys

7.14.2 Broadcast Messages

- Send to All Customers
- Send to All Providers
- Send by Segment
- Send by Location
- Schedule Broadcasts

7.14.3 Announcements

- Platform-wide Announcements
- Maintenance Notifications
- Feature Launch Notifications

7.15 Audit & Compliance

7.15.1 Audit Logs

- User Activity Logs
- System Changes Log
- Financial Transaction Logs
- Data Modification History

- Login/Logout History
- Failed Login Attempts

7.15.2 Compliance Management

- GDPR Compliance
 - Data Export Requests
 - Data Deletion Requests
 - Consent Management
- Data Retention Policies
- Data Backup & Recovery
- Security Audit Reports

7.15.3 Security

- Two-Factor Authentication (2FA)
- IP Whitelisting
- Session Management
- Password Policies
- Role-based Access Control
- Encryption Settings
- Vulnerability Scanning

7.16 Admin Actions Summary

Full CRUD Operations on:

- Customers
- Service Providers
- Managers
- Team Leads
- Requests
- Service Categories
- Cities & Areas
- PIN Codes
- Roles & Permissions
- Employees
- Coupons & Promotions
- Payment Gateways
- Toolkits & Vehicles
- Content (FAQs, Help Articles)

Admin has authority to:

- Approve/Reject any request

- Override any decision
 - Access any data
 - Modify any configuration
 - Generate any report
 - Execute bulk operations
 - Perform system maintenance
 - Manage integrations
 - Control platform availability
-

8. Super Admin Module

8.1 Super Admin Capabilities

Super Admin has ALL Admin capabilities PLUS:

8.1.1 Admin Management

- Create Admin Accounts
- Assign Admin Roles
- Define Admin Permissions
- Suspend/Reactivate Admins
- Monitor Admin Activities
- Admin Performance Review
- Admin Activity Logs

8.1.2 Platform-wide Control

System Health Monitoring:

- Server Status & Uptime
- Database Performance
- API Response Times
- Error Rates
- System Load
- Memory & CPU Usage
- Storage Utilization
- Third-party Service Status

System Administration:

- Database Backups
- System Maintenance Mode
- Server Configuration

- Application Deployment
- Version Control
- Rollback Capabilities
- Emergency Shutdown

8.1.3 Advanced Analytics

Business Intelligence:

- Executive Dashboards
- Predictive Analytics
- Cohort Analysis
- Trend Forecasting
- Competitive Analysis
- Market Analysis
- Growth Projections

Platform Metrics:

- Total Platform Users
- Total Platform Transactions
- Total Platform Revenue (Lifetime)
- Growth Rate (MoM, YoY)
- User Engagement Metrics
- Retention Metrics
- Conversion Funnel Analysis
- Revenue per User
- Customer Acquisition Cost
- Lifetime Value
- Churn Rate
- Net Promoter Score (NPS)

8.1.4 Advanced Financial Control

Revenue Management:

- Multi-currency Support
- Currency Conversion Rates
- Commission Structure Configuration
- Revenue Sharing Models
- Profit Margins by Category
- Financial Projections
- Investment Tracking

Cost Management:

- Infrastructure Costs
- Third-party Service Costs
- Marketing Spend
- Personnel Costs
- ROI Analysis
- Budget Allocation
- Cost Optimization

8.1.5 Multi-level Hierarchy Management

Organization Structure:

- Super Admin → Admins → Managers → Team Leads → Workers
- View Complete Hierarchy Tree
- Restructure Organization
- Transfer Territories
- Merge/Split Teams
- Rebalance Workload

Performance Across Hierarchy:

- Super Admin sees performance at every level
- Drill-down from high-level to individual
- Comparative Performance
- Identify Bottlenecks
- Best Practices Identification

8.1.6 Platform Expansion

New Market Launch:

- Launch New City
- Configure City Settings
- Onboard City Team
- Marketing Campaign Setup
- Monitor Launch Performance

Service Expansion:

- Launch New Service Category
- Pilot Testing
- Gradual Rollout
- Performance Monitoring
- Optimization

8.1.7 Data Management

Data Governance:

- Data Quality Monitoring
- Data Integrity Checks
- Data Cleansing
- Deduplication
- Data Migration
- Data Archival
- Data Export (Complete Platform Data)

Data Analytics:

- Big Data Analytics
- Machine Learning Integration
- AI-powered Insights
- Anomaly Detection
- Pattern Recognition

8.1.8 Security & Compliance**Security Administration:**

- Firewall Configuration
- DDoS Protection
- Intrusion Detection
- Security Patch Management
- Penetration Testing
- Security Audit
- Incident Response

Compliance Monitoring:

- Regulatory Compliance (GDPR, PCI-DSS)
- Compliance Reporting
- Policy Enforcement
- Legal Documentation
- Third-party Certifications (ISO, SOC2)

8.1.9 Platform Customization**White-label Capabilities:**

- Multi-tenant Architecture
- Brand Configuration per Tenant
- Custom Domain Mapping
- Tenant Isolation

API Management:

- API Key Management
- Rate Limiting
- API Analytics
- Developer Portal
- API Documentation

8.1.10 Emergency Controls

Crisis Management:

- Emergency Shutdown
- Partial Service Suspension
- Priority Mode (Essential Services Only)
- Emergency Communication Templates
- Disaster Recovery Plan Execution

Incident Management:

- Track Major Incidents
- Coordinate Response Teams
- Post-mortem Analysis
- Implement Preventive Measures

8.2 Super Admin Dashboard

Super Admin Dashboard Components:

1. Platform Health Score
2. Real-time Active Users (All roles)
3. Real-time Active Requests
4. Revenue Ticker (Live)
5. Critical Alerts Panel
6. System Status Indicators
7. Geographic Distribution Map
8. Performance Trends (Last 30 days)
9. Key Growth Metrics
10. Executive Summary
11. Quick Actions Panel
12. Notifications Center

8.3 Super Admin Reports

Strategic Reports:

- Board of Directors Report
- Investor Report
- Annual Performance Report
- Market Analysis Report
- Competitive Intelligence Report
- Growth Strategy Report
- Risk Assessment Report
- Technology Roadmap Report

8.4 Super Admin Privileges

Ultimate Authority:

- Override ANY decision at ANY level
- Access ANY data without restriction
- Modify ANY configuration
- Delete ANY entity (with safeguards)
- Execute ANY bulk operation
- Control platform availability
- Access source code & database
- Modify platform architecture

Safeguards:

- Audit Trail for Every Action
 - Cannot be deleted by any other user
 - Two-Factor Authentication Mandatory
 - Biometric Authentication (Optional)
 - Activity Monitoring & Alerts
 - Restricted to Authorized Personnel Only
-

9. Technical Specifications

9.1 Database Schema (High-level)

Key Tables:

- Users (All roles)
- Customers
- ServiceProviders
- Managers
- Admins

- SuperAdmins
- Requests
- Payments
- Addresses
- Vehicles
- Toolkits
- Teams
- Cities
- Areas
- PINcodes
- ServiceCategories
- Ratings
- Issues
- Notifications
- AuditLogs
- Documents
- Messages
- Attendance
- Salaries
- Expenses
- Coupons
- Referrals

9.2 API Architecture

RESTful APIs:

- Authentication APIs
- Customer APIs
- Provider APIs
- Request Management APIs
- Payment APIs
- Admin APIs
- Notification APIs
- Analytics APIs
- File Upload APIs

API Security:

- JWT-based Authentication
- OAuth 2.0
- API Rate Limiting
- IP Whitelisting
- Request Validation
- Response Encryption

9.3 Mobile App Features

Cross-platform Compatibility:

- iOS (Swift/React Native)
- Android (Kotlin/React Native)

Native Features:

- Camera Access
- GPS/Location Services
- Push Notifications
- Biometric Authentication
- Offline Mode (limited)
- Background Location Tracking (for providers)

9.4 Performance Requirements

Response Times:

- API Response: < 200ms (average)
- Page Load: < 2 seconds
- Search Results: < 500ms
- Payment Processing: < 3 seconds

Scalability:

- Support 100,000+ concurrent users
- Handle 10,000+ requests per minute
- 99.9% Uptime SLA
- Auto-scaling Infrastructure

Data Storage:

- Image Compression
- CDN for Static Assets
- Database Indexing
- Query Optimization
- Caching Strategy (Redis)

9.5 Security Measures

Data Security:

- End-to-End Encryption
- Data Encryption at Rest

- Secure Password Hashing (bcrypt)
- PII Data Protection
- Credit Card Data Compliance (PCI-DSS)

Application Security:

- SQL Injection Prevention
- XSS Prevention
- CSRF Protection
- Input Validation
- Output Encoding
- Secure Session Management

Network Security:

- HTTPS Everywhere
 - SSL/TLS Certificates
 - Firewall Configuration
 - DDoS Protection
 - Regular Security Audits
-

10. User Flows

10.1 Customer Journey

1. Registration/Login
2. Browse Services or Search
3. Select Service Category
4. Fill Request Form & Upload Images
5. Schedule Service
6. Receive Provider Assignment
7. Track Provider in Real-time
8. Service Completion & Photo Verification
9. Payment
10. Rate & Review
11. Request History

10.2 Service Provider Journey

1. Enrollment & Verification
2. Onboarding & Training
3. Receive Request Assignment

4. Accept/Reject Request
5. Navigate to Customer Location
6. Update Status: Reached
7. Capture Before Photos
8. Perform Service
9. Capture After Photos
10. Collect Payment
11. Submit Completion

10.3 Manager Journey

1. Login to Dashboard
2. View Team & Request Overview
3. Assign Requests to Providers
4. Monitor Live Progress
5. Handle Customer Issues
6. Approve Payments/Reimbursements
7. Manage Resources
8. Review Reports

10.4 Admin Journey

1. Login to Admin Panel
 2. Monitor Platform Health
 3. Manage Users (Customers, Providers, Managers)
 4. Configure Platform Settings
 5. Approve Onboarding
 6. Generate Reports
 7. Handle Escalations
-

11. Platform Features Summary

11.1 Core Features

✓ Multi-role Access Control ✓ Service Request Management ✓ Real-time Tracking ✓ Photo Documentation (Before/After) ✓ Multi-channel Payment ✓ Rating & Review System ✓ Issue Resolution System ✓ Resource Management (Toolkit, Vehicle) ✓ Salary & Incentive Management ✓ Analytics & Reporting ✓ Notification System ✓ Geographic Management ✓ Multi-city Operations

11.2 Advanced Features

✓ AI-powered Auto-assignment ✓ Predictive Analytics ✓ Dynamic Pricing ✓ Loyalty Program ✓ Referral System ✓ Subscription Plans ✓ Multi-language Support ✓ Dark Mode ✓ Offline Mode (limited) ✓ Voice Commands (future) ✓ AR for Furniture Placement (future) ✓ Chatbot Support

11.3 Unique Differentiators

✓ Comprehensive Verification Process ✓ Real-time Resource Tracking ✓ Petrol Reimbursement Management ✓ Toolkit Replacement Workflow ✓ Vehicle Service Management ✓ Detailed Financial Transparency ✓ Multi-level Hierarchy Management ✓ Before/After Photo Compliance ✓ Issue Escalation Matrix

12. Implementation Roadmap

Phase 1: MVP (3-4 months)

- Core Customer Module
- Core Service Provider Module
- Basic Request Management
- Payment Integration
- Admin Panel (Basic)

Phase 2: Enhanced Features (2-3 months)

- Manager Module
- Advanced Request Management
- Resource Management
- Analytics Dashboard
- Mobile Apps (iOS/Android)

Phase 3: Scale & Optimize (2-3 months)

- Multi-city Launch
- Advanced Analytics
- Performance Optimization
- Security Hardening
- Third-party Integrations

Phase 4: Innovation (Ongoing)

- AI/ML Features
- Predictive Analytics

- AR Features
 - Voice Assistant
 - Advanced Automation
-

13. Success Metrics (KPIs)

13.1 Customer Metrics

- Customer Acquisition Rate
- Customer Retention Rate
- Average Order Value
- Customer Lifetime Value
- Net Promoter Score (NPS)
- Customer Satisfaction Score (CSAT)

-

14. Conclusion

ServiceHub Pro is a comprehensive, scalable, and feature-rich platform designed to revolutionize the home service industry. With robust role-based access, end-to-end service management, financial transparency, and powerful analytics, the platform is positioned to deliver exceptional value to all stakeholders: customers, service providers, managers, admins, and investors.

Key Strengths:

- Complete transparency across all operations
- Rigorous verification & quality assurance
- Financial clarity for all stakeholders
- Scalable architecture for multi-city expansion
- Data-driven decision making
- Customer-centric design

Next Steps:

1. Finalize technology stack
2. Create detailed wireframes & UI/UX designs
3. Develop database schema
4. Build MVP
5. Conduct beta testing
6. Launch pilot in one city
7. Iterate based on feedback
8. Scale to multiple cities
